EasiSMS is a Leading Next-Generation Hybrid Messaging Solution

Real-Time Communication

EasiSMS is an indispensable enabler for customer support. Now you can provide real-time assistance to your customers in a highly efficient and personalised fashion.

Your customers will be able to communicate with you using the mobile app conveniently and you will differentiate from your competitors by leveraging the Real-Time Communication providing a superb experience.

Cost-Efficient Messaging

EasiSMS allows you to utilise your budget efficiently. Using our push notification feature, now you can send an unlimited number of messages without any extra charges. Increase your sales by communicating with your customers frequently, promoting new products and improving your customer experience.

Secure Communication

EasiSMS will ensure that no one can falsify your identity to send spam or phishing messages to your stakeholders. EasiSMS provides a secure and proven push notification platform so that mobile users can interact with organisations confidently.
